# LET'S TALK

Most people will tell you that having great relationships - inside and outside of the workplace - is what really matters. And yet, despite this realisation, so many of us still find it hard to bond, to network, to stay married, to feel fulfilled. **You see, the truth is, these human problems are business problems.**

**We know that to have a happy, contented and healthy workforce is key to having a productive, profitable and growing business. And, it takes a culture of care to achieve this - the exact type of care you're showing just not by exploring ways to support your people to flourish.**

Do you remember learning to write as a child? It's a skill - and cultivating positive relationships is no different. It is a set of skills that can be learned and fine-tuned with practice over time.

I believe that engaged employees are central to organisational performance, and a person's personal and professional relationships are key to how they show up at work - and in life.

I've combined my passion for wellbeing with decades of experience and education in positive psychology and change management to create programs that build capacity, create meaning and foster greater social connection - because relationships are everything.

We use the latest positive psychology and relationship research to deliver impactful and engaging learning experiences that produce results on day one.

So, if you're committed to helping your workforce to develop and grow - as people, and as employees - the Intime Collective has something for you.

**Your team deserve this. You deserve this.**

**A HEART  
CAN'T PUMP  
BLOOD WHEN  
IT'S BROKEN.**

**Relationships are a thread that runs through every aspect of our lives.** They impact how we serve our customers, build our teams, lead our people and ultimately, they are what shape our individual and collective social wellbeing.

Think about how it feels when you're not getting along with someone important in your life, and then think about how good it feels when you have supportive people around you who care.

**THESE PRINCIPLES APPLY  
AT HOME AND AT WORK.**

When employees have strong relationships at home, with their managers and co-workers, the workplace reaps the benefits.

# GREAT RELATIONSHIPS MAKE US HAPPY AND WELL.

Strong relationships, and importantly, the skills needed to sustain these, underpin how teams work, how leaders serve, how work gets done and how hearts are filled.

We've all heard the saying 'you don't go to work to make friends', but to what extent is that true? The truth is, social connections in the workplace result in better business outcomes:

**FEWER WORKPLACE INJURIES**

**REDUCED SICK LEAVE**

**HIGHER STAFF RETENTION**

(& you'll attract good talent)

**HELP WITH LEARNING AND PERFORMANCE**

**INCREASED MOTIVATION**

# WE'RE BETTER TOGETHER.

The simple truth is, employers who support social connections in the workplace and help employees to form strong relationships help to build a successful workforce.

The Intime Collective teaches individuals, teams and leaders how to build social connection and be better together by equipping them with the practical tools to embrace strong, meaningful and respectful relationships.

We show people how to refocus and fortify their professional, personal and intimate relationships, so they feel more connected to the work they're doing, empowered to deliver and how to enjoy the process.
